introduction to the micrometer

removing the broken screw

overview of the project including the Martin \u0026 Fils screw plate

testing the graver I recently sharpened on the 4mm steel rod

cutting the workpiece with a vintage graver

cutting with a new Glardon Vallorbe graver

using the Martin \u0026 Fils 48 B screw plate to thread the screw

removing some additional material from the workpiece

creating the thread with the screw plate

testing the new thread on the micrometer

deciding to remove some additional material under where the screw head will be

overview of how I plan to cut the slot in the screw head

removing additional material on the lathe to make the screw longer

cutting the screw head free from the stock

using the lathe to cut the slot in the screw head

admiring the finished screw

testing the final result in the micrometer

reviewing all of the tools I used to make the screw

a note about the messiness of the lathe tailings and how to control them

conclusion and thank you!
