It seems we are bombarded daily and often with companies who claim that they can help you repair your credit for a small fee and you won't have to worry about it at all. However, the truth is that self help credit repair is not only possible, but really the way to go. It isn't as difficult as many people might think going about repairing your credit yourself. In fact the newest trend in credit repair actually the self help road. All you need to do is start by pulling a copy of your credit report from all three credit reporting bureaus: Experian, Equifax, and TransUnion. You are entitled to one free credit report per year thanks to passage of the FACT Act. The other two, you'll have to pay for, but the fee is usually small - between \$10 and \$15. After you get your credit reports, the next self help step is to go through those reports and check to see that the information is accurate. Most of the time, there are going to be errors of some type. These errors can vary from a past due account that has been paid off to a debt that wasn't yours in the first place.If you find errors, you need to contact the credit reporting agency both by phone and in writing. You'll be asked to provide proof of the error and then they, in turn are required to notify you in writing of their decision to either remove it from your credit report or leave it due to insufficient proof. Be diligent in this endeavor. An accomplished self help credit repair program entails being aggressive when it comes to your information and the accuracy of that information.Another part of a self help credit repair program includes the development of a long-term plan that will help you keep your credit use under control and a plan for not getting into credit problems again. Sure, credit counselors can help you do this, but why

pay the money and take the chance that you are dealing with a less than reputable company? Do a little research and you'll find that there is plenty of information available on the Internet as well as software programs that can help you with your self help credit repair program. DIY FREE Credit Repair and Restore

DIY FREE Credit Repair & Restore Understanding & Repairing Credit the Safe and Legal Way. Know Your Rights, Delete Negative Items, 12 Step FICO Score Boosting Easy To Follow Process If anyone tells you that there is a way to repair your credit and delete all negative items in just 30 days, don't walk away but run away. Remember if it is too good to be true, it probably is right? There is a set procedure that all big three credit reporting agencies follow, and that procedure has a time frame, which is longer than 30 days, I can assure you that much. I have been working in the credit industry for last 28 years, and I have heard, seen, tried and done it all. But don't get me wrong, there is a rather simple process that anyone can follow and see an amazing result along with a huge boost in their credit score. Though it is not a yearlong process, but it is more than 30 days. Depending on your credit analysis, it may take you anywhere from 60-120 days to see some real results. The process I outlined in this book is 100% legal, within the federal fair credit laws and the results are exactly what you get if you hire an expensive attorney. In this book, that is exactly what I show you; I help you understand the process, the inner workings of all three agencies and their SOP (standard operating procedure). I take you step-by-step, guiding you from the recognition of errors and inaccuracies. You'll be surprised at what constitutes an error. I walk you through the dispute process of items on your report, advising you of your rights and responsibilities. The way this simple process works is first you analyze your credit report, identifying the errors, inaccuracies, misinformation and all other negative items. Next, you follow the simple dispute process which can be done either online or via a letter sent by U.S. mail. Once you are done these two steps, next, you follow up with them to make sure those disputes are removed from your report. I attached all the letters that you can just copy and put your name and other information and send them. Next, I show you how you can boost your credit score right now - without waiting for the completion of the process. Which can actually take place simultaneously as you wait for those negative items to disappear. But what good does it do if you repair your credit but don't change your fundamental relationship to money or financial obligations? You will end up right where you started, and in need of another lengthy process of credit repair again. I am sure we all have a love-hate affair with money and credit, I think it is vital to understand the nuts and bolts of the credit industry, especially the role of the credit

bureaus, analyzing the five basic categories of your credit report. Finally, I will show you how these categories are weighted in order to create your score. So you can achieve the dream score you always wanted. This is a credit repair book for everyone, whether your score is low because of your poor relationship with money, your indiscretions of your younger years, unexpected medical costs, judgment, lien, foreclosure, bankruptcy, charge offs, late payments or just not having enough money to live on for years. Isn't it about time you get the credit you deserve?

Mastering Credit

Society relies heavily on credit for most financial decisions. Today, good credit is not just important for getting a loan or a credit card. Many businesses have to check your credit before deciding whether or not they will extend their products and services to you. Mortgage lenders need to be sure that you will pay your mortgage responsibly before they can finance you. Without good credit, the mortgage lender concludes that giving you a loan is risky for them. If they still approve, regardless of your poor credit, they will charge you a very high interest rate. Bad credit will see you pay a higher mortgage amount or worse, your mortgage application will be declined. Just because you are not currently interested in buying a house does not mean that your credit does not matter. Landlords will, in most cases, consult your credit before renting you a house or apartment. Your lease is considered a loan. You require a loan to purchase a car unless you have the full amount at hand. Your credit score affects the loan amount and interest rate and whether or not you will be given the loan in the first place. With excellent credit, you will qualify for a higher loan amount and the interest rate will be lower. A poor credit score translates to limited options. Not many lenders will be ready to finance you and the few that will be willing might charge a very high interest rate. Table of Contents Preface

information DELETED, do not settle for any other status. Let's face the facts here, without good credit you spend A LOT more money on things like mortgages, car loans, INSURANCE and cell phone plans. Even healthcare can cost a lot more. And let's not forget that nowadays employers usually will check your credit to ensure you aren't a financial risk to them. If your credit sucks, and it's a job you really want, how awful would that be if you get passed over because of your credit score or credit report Collections and Judgment, Get Them Deleted! Dispute your credit the right way using Federal laws in your favor. The Consumer Acts are vast and complex, almost every debt collector or creditor has a violation somewhere in their operations, they're almost impossible NOT to violate. Write Credit Letters From Hell and State Your Demands. No company likes dealing with debtors that know the Consumer Acts and uses them to their advantage. Most companies can barely adhere to the vast Consumer laws and Fair Credit Acts, however minor, most companies violate some aspect of the laws at one time or another. If you can't find a Fair Credit violation, use the Cyber Security breach tactic. This one is VERY SERIOUS. The Government wants large corporations to secure your data, if they are recklessly handling your information, this falls under the Cyber Security mandates and is definitely going to get their attention. Inquiries Nowadays lots of companies don't even tell you upfront that they are making a hard credit inquiry. These can add up over time and pull your score down many points, getting these deleted is the goal. Get your free REAL score and report online direct from the major bureaus. Lots of websites and companies claim they will give you a free credit score but they usually try to trick you. They will try to charge you either a large one-time fee or an ongoing membership fee for access to your credit information. But there is one website that gives you your credit score 100% free without trying to sell you anything, and you can monitor your score without any cost. They can even provide you with free email alerts when anything new pops up on your credit report so you can take care of it right away. Insurance Auto insurance rates are out of control these days, don't let them rip you off because your score places you in a certain category of risk for them, fight back by improving your score quickly and get the low rates you deserve NOW. Also, check your driving record report, sometimes errors in points or citations will cause your insurance premiums to remain high. Sometimes citations that were supposed to drop off haven't.
