

# FILE GREAT DEBATES IN CONTRACT LAW PALGRAVE GREAT DEBATES IN LAW

## **Great Debates in Contract Law**

This textbook is an ambitious and engaging introduction to the more advanced writings on contract law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in contract law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

## **Great Debates in Contract Law**

This textbook is an engaging introduction to the more advanced writings on contract law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. This edition has been extensively rewritten to include new cases and scholarship throughout. New sections include 'no oral modification' clauses, substantive fairness, regulation of standard-form contracts, and remoteness of damage in contract. An excellent book for students of contract law who wish to know more, the aim of the book is not to present a complete overview of theoretical issues in contract law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading. New to this Edition: - Extensively rewritten to include new cases and scholarship throughout. - New sections and debates include 'no oral modification' clauses, substantive fairness, regulation of standard-form contracts, and remoteness of damage in contract.

## **Great Debates in Family Law**

This textbook is an ambitious and engaging introduction to the more advanced writings on family law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in family law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

## **Great Debates in Land Law**

This textbook is an ambitious and engaging introduction to the more advanced writings on land law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in land law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable

experts on key topics and each chapter ends with a list of guided further reading.

## **Great Debates in Jurisprudence**

This textbook is an ambitious and engaging introduction to the more advanced writings on Jurisprudence, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in Jurisprudence, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading. A perfect book for students taking a module in jurisprudence, or for those wanting to deepen their knowledge. New to this Edition: - New debates on the nature and legitimacy of global justice, and the binding force of precedent. - Incorporates discussion of new contributions to jurisprudential writing by Mark Greenberg, Scott Hershowitz, David Howarth and Shona Stark, Matthew Kramer, Frederick Schauer, and Jeremy Waldron. - Includes substantially revised chapters on 'The nature of jurisprudence' and 'Morality and rights'

## **Great Debates on the European Convention on Human Rights**

This engaging textbook provides a critical analysis of the legitimacy and effectiveness of the European Convention on Human Rights and its practical operation. In a succinct way, the book investigates questions around the legitimacy of how the European Court of Human Rights develops its law, the obligations of states to comply with its judgments, the adequacy of the Convention in securing basic goods, and the effectiveness of the system in protecting rights 'in the real world'. It assesses some under-explored areas of the Convention that are often overlooked. Presenting a number of debates about the legitimacy and effectiveness of the system in a provocative and critical style, this book encourages debate, discussion, and self-reflection on how, when and why the Convention protects human rights in Europe. An ideal text for Law students at English and Welsh universities and higher education institutions taking a module in The European Convention on Human Rights (LLB or LLM level), and for GDL/CPE students and those taking the postgraduate LPC training course.

## **Contract Law**

This book offers students a firm understanding of the central doctrines and the controversies associated with them. Presenting a unique balance of 1/3 text to 2/3 cases and materials, the book can be used both as a stand alone text or as a companion volume to a textbook. Comprehensive coverage is presented in a logical structure that maps closely onto courses and stimulating commentary is delivered through detailed introductions, extract notes and extensive comments within each chapter. Extended extracts illustrate points clearly and promote the essential skills of case-reading, encouraging more detailed analysis of salient points, while analysis of key academic commentaries on issues of controversy, contract clauses etc is also included to provide a well-rounded discussion. Extracts from materials such as the Principles of European Contract Law and the UNIDROIT Principles for International Commercial Contracts are incorporated throughout to provide a useful point of comparison with English Law - encouraging critical reflection upon the state of the English system and illustrating how the law of contract is regarded in other jurisdictions. Specimen clauses are also cited to demonstrate some of the practical problems that confront both businessmen and lawyers, offering students working examples of complex issues. Questions are placed at key points throughout the text to encourage further consideration and reflection of complex or controversial issues, while extensive referencing promotes further research. Written in a familiar and engaging style, this book offers a thought-provoking and well-balanced argument aimed squarely at undergraduates. Online Resource Centre: DT Critical summaries DT Web-links DT Extra cases and materials DT Recent updates Test bank: DT 150 multiple choice questions with answers and feedback

## **The Constitutional Dimension of Contract Law**

One of the hallmarks of the present era is the discourse surrounding Human Rights and the need for the law to recognise them. Various national and supranational human rights instruments have been developed and implemented in order to transition society away from atrocity and callousness toward a more just and inclusive future. In some countries this is done by means of an overarching constitution, while in others international conventions or ordinary legislation hold sway. Contract law plays a pivotal role in this context. According to many, this is done through the much-debated 'civilising mission' of the contract, a notion which itself constitutes the canon of the Western liberal principle of 'civilised economy'. The movement away from the belief in the absolute freedom of contract, which reached its zenith in the nineteenth century, to the principles of fairness and justice that underpin contract law today, is often deemed to be a testament to this civilising influence. Delving into the interplay between human rights policies, constitutional law, and contract law from both theoretical and practical perspectives, this first volume of a two-book collection offers a totally new reappraisal of the subject by gathering a collection of essays written by contract law scholars from Europe, South Africa, Canada, and Australia. Instead of providing the reader with a sterile compilation of positivistic norms and policies on the impact of fundamental rights and constitutional law issues on contract law's development, the authors build on their personal experience to analyse specific topics related to contracting that include a constitutional dimension. The book fills an important void in comparative law scholarship and in so doing represents the starting point for further debate on the subject.

## **Great Debates in Gender and Law**

The first textbook to consider gender perspectives in relation to the whole undergraduate law curriculum in England and Wales. Gender is of central importance in every area of law and every area of people's lives but is rarely mentioned in the formal LLB syllabus; this book is designed to fill some of those gaps. 18 chapters, written by experts in the field, cover all the core modules on the English LLB together with 11 of the most popular options. Aimed at students and lecturers on undergraduate and postgraduate Gender and Law modules, the book will also be useful for all LLB and LLM students studying English law, who may use it to accompany their studies from their first to their final year, and also for prospective law students, legal scholars from outside England and Wales, and scholars in other disciplines.

## **Great Debates in Equity and Trusts**

This textbook is an ambitious and engaging introduction to the more advanced writings on equity and trusts, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in equity and trusts, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

## **Great Debates in Employment Law**

This textbook is an ambitious and engaging introduction to the more advanced writings on employment law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in employment law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

## **Contract Law Minimalism**

Commercial contract law is in every sense optional given the choice between legal systems and law and arbitration. Its 'doctrines' are in fact virtually all default rules. Contract Law Minimalism advances the thesis that commercial parties prefer a minimalist law that sets out to enforce what they have decided - but does nothing else. The limited capacity of the legal process is the key to this 'minimalist' stance. This book considers evidence that such minimalism is indeed what commercial parties choose to govern their transactions. It critically engages with alternative schools of thought, that call for active regulation of contracts to promote either economic efficiency or the trust and co-operation necessary for 'relational contracting'. The book also necessarily argues against the view that private law should be understood non-instrumentally (whether through promissory morality, corrective justice, taxonomic rationality, or otherwise). It sketches a restatement of English contract law in line with the thesis.

## **The Politics of Legislative Debates**

Legislative debates make democracy and representation work. Political actors engage in legislative debates to make their voice heard to voters. Parties use debates to shore up their brand. This book makes the most comprehensive study of legislative debates thus far, looking at the politics of legislative debates in 33 liberal democracies in Europe, North America and Latin America, Africa, Asia, and Oceania. The book begins with theoretical chapters focused on the key concepts in the study of legislative debates. Michael Laver, Slapin and Proksch, and Taylor examine the politics of legislative debates in parliamentary and presidential democracies. Subsequently, Goplerud makes a critical review of the methodological challenges in the study of legislative debates. Schwalbach and Rauh further discuss the difficulties in the comparative empirical study of debates. Country-chapters offer a wealth of original material organized around structured sections. Each chapter begins with a details discussion of the institutional design, focusing on the electoral system, legislative organization, and party parties, to which a section on the formal and informal rules of legislative debates ensues. Next, each country chapter focuses on analyzing the determinants of floor access, with a particular emphasis on the role of gender, seniority, legislative party positions, among others. In the concluding chapter, the editors explore comparative patterns and point out to multiple research avenues opened by this edited volume. The Oxford Politics of Institutions series is designed to provide in-depth coverage of research on a specific political institution. Each volume includes a mix of theoretical contributions, state-of-the-art research review chapters, comparative empirical chapters, country case study chapters, and chapters aimed at practitioners. Typically, the majority of chapters in each volume comprises of country studies written by country experts. Volumes in the series are aimed at political scientists, students in political science programmes, social scientists more generally, and policy practitioners. Series editors: Shane Martin, Anthony King Chair in Comparative Government and Head of the Department of Government, University of Essex; and Sona N. Golder, Professor of Politics, Department of Political Science, Pennsylvania State University.

## **Contract Law**

The fifth edition of Ewan McKendrick's Contract Law: Text, Cases, and Materials provides a complete guide to the subject in a single volume, containing everything needed for the study of contract law at undergraduate level. Written by an experienced author and leading authority in the field, this is a popular text with students and lecturers alike. The book comprises a unique balance of 40% text to 60% cases and materials, combining the best features of a textbook with those of a traditional casebook. The author's clear explanations and analyses of the law provide invaluable support to students, while the extracts from cases and materials promote the development of essential case reading skills and allow for a more detailed appreciation of the practical workings of the law, and of the best legal scholarship.

## **A Concise History of the Common Law**

Originally published: 5th ed. Boston: Little, Brown and Co., 1956.

## **Chinese Contract Law**

A unique comparative analysis of Chinese contract law accessible to lawyers from civil, common, and mixed law jurisdictions.

## **Ancient Law**

Clinical ethicists encounter the most emotionally eviscerating medical cases possible. They struggle to facilitate resolutions founded on good reasoning embedded in compassionate care. This book fills the considerable gap between current texts and the continuing educational needs of those actually facing complex ethics consultations in hospital settings. 28 richly detailed cases explore the ethical reasoning, professional issues, and the emotional aspects of these impossibly difficult consultations. The cases are grouped together by theme to aid teaching, discussion and professional growth. The cases inform any reader who has a keen interest in the choices made in real-life medical dilemmas as well as the emotional cost to those who work to improve the situations. On a more advanced level, this book should be read by ethics committee members who participate in ethics consultations, individual ethics consultants, clinicians who seek education about complex clinical ethics cases, and bioethics students.

## **Complex Ethics Consultations**

Why our workplaces are authoritarian private governments—and why we can't see it One in four American workers says their workplace is a "dictatorship." Yet that number almost certainly would be higher if we recognized employers for what they are—private governments with sweeping authoritarian power over our lives. Many employers minutely regulate workers' speech, clothing, and manners on the job, and employers often extend their authority to the off-duty lives of workers, who can be fired for their political speech, recreational activities, diet, and almost anything else employers care to govern. In this compelling book, Elizabeth Anderson examines why, despite all this, we continue to talk as if free markets make workers free, and she proposes a better way to think about the workplace, opening up space for discovering how workers can enjoy real freedom.

## **Private Government**

An exciting new textbook which presents critical perspectives on corporate and commercial law. Focussing on the key areas of trade and transactions, intellectual property, corporations and finance, it covers each of the areas of commercial and company law that would typically be offered to undergraduate and postgraduate law students. The chapters are written by acknowledged experts in the field and are aimed at undergraduates, post graduates and lecturers who wish to further their understanding of this area. Each of the authors focuses on an area within their subject and draws out the political, the controversial and the discursive, providing essential reading for undergraduate dissertation topics and postgraduate analysis.

## **Great Debates in Commercial and Corporate Law**

This textbook is an ambitious and engaging introduction to the more advanced writings on medical law and ethics, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is not to present a complete overview of theoretical issues in medical law and ethics, but rather to illustrate the current debates which are currently going on among those working in and shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading. A perfect book for students

taking a module in medical law, or for those wanting to deepen their knowledge. New to this Edition: - The Supreme Court decision in Montgomery receives extensive discussion and analysis - Recent developments on the best interests test under the Mental Capacity Act are explored - The latest case law on end of life decision making is set out - Debates over whether abortion should be decriminalised are examined - The Charlie Gard case is considered

## **Great Debates in Medical Law and Ethics**

An engaging introduction to the more advanced writings on property law, designed to provide the additional insights necessary to excel in the study of the subject.

## **Great Debates in Property Law**

What role does gender play in shaping the law and legal thinking? This book provides an answer to this question, examining the historical role of gender in law and the relevance of gender to modern jurisprudence. It presents a clear, concise introduction to thinking about gender issues for lawyers and law students.

## **Law and Gender**

This best-selling, classic text provides a clear and straightforward account of the basic rules of contract law, while also introducing current debates about the nature, scope and functions of the law and discussing wider controversies surrounding the basic doctrines. Praised time and again by both lecturers and students, Contract Law is compact yet comprehensive, well-written, well-structured, stimulating and engaging. This new eleventh edition has been fully revised and updated to reflect recent changes in the law. It is essential reading for all students taking undergraduate and GDL/CPE courses in contract law.

## **Contract Law**

Public Law is a high quality textbook that offers a mixture of black letter law and political analysis to give students an excellent grounding in the subject. It covers all of the key topics on undergraduate courses and includes a number of pedagogical features to aid understanding.

## **Public Law**

The Humanity of Private Law presents a new way of thinking about English private law. Making a decisive break from earlier views of private law, which saw private law as concerned with wealth-maximisation or preserving relationships of mutual independence between its subjects, the author argues that English private law's core concern is the flourishing of its subjects. **THIS VOLUME** - presents a critique of alternative explanations of private law; - defines and sets out the key building blocks of private law; - sets out the vision of human flourishing (the RP) that English private law has in mind in seeking to promote its subjects' flourishing; - shows how various features of English private law are fine-tuned to ensure that its subjects enjoy a flourishing existence, according to the vision of human flourishing provided by the RP; - explains how other features of English private law are designed to preserve private law's legitimacy while it pursues its core concern of promoting human flourishing; - defends the view of English private law presented here against arguments that it does not adequately fit the rules and doctrines of private law, or that it is implausible to think that English private law is concerned with promoting human flourishing. A follow-up volume will question whether the RP is correct as an account of what human flourishing involves, and consider what private law would look like if it sought to give effect to a more authentic vision of human flourishing. The Humanity of Private Law is essential reading for students, academics and judges who are interested in understanding private law in common law jurisdictions, and for anyone interested in the nature and significance of human flourishing.

## **The Humanity of Private Law**

Studies in the Contract Laws of Asia provides an authoritative account of the contract law regimes of selected Asian jurisdictions, including the major centres of commerce where until now, limited critical commentaries have been available in the English language. In this new six part series of scholarly essays from leading scholars and commentators, each volume will offer an insider's perspective into specific areas of contract law, including: remedies, formation, parties, contents, vitiating factors, change of circumstances, illegality, and public policy, and will explore how these diverse jurisdictions address common problems encountered in contractual disputes. Concluding each volume will be a closing discussion of the convergences and divergences throughout each across the jurisdictions, and comparisons with European jurisdictions from which Asians well as an overview of the common themes found throughout each jurisdiction .contract law derive. Volume I of this series examines the remedies for breach of contract in the laws of China, India, Japan, Korea, Taiwan, Singapore, Malaysia, Hong Kong, Korea, and Thailand. Specifically, it addresses the readiness of each legal system in their action to insist that parties perform their obligations; the methods of enforcing the parties' agreed remedies for breach; and the ways in which monetary compensation are awarded. Each jurisdiction is discussed over two chapters; the first chapter will examine the performance remedies and agreed remedies, while the second explores the monetary remedies. A concluding chapter offers a comparative overview.

## **Studies in the Contract Laws of Asia**

Celebrating over 30 years as the market-leading series, 'Blackstone's Statutes' have an unrivalled tradition of trust and quality. With a rock-solid reputation for accuracy, reliability, and authority, they remain first-choice for students and lecturers, providing a careful selection of all the up-to-date legislation needed for exams and course use.

## **Blackstone's EU Treaties and Legislation 2021-2022**

An abridged collection of legislation carefully reviewed and selected by Dr John Stanton. With unparalleled coverage of public and human rights law, it leads the market: consistently recommended by lecturers and relied on by students for exam and course use.

## **Blackstone's Statutes on Public Law & Human Rights 2021-2022**

What is a family? What makes someone a parent? What rights should children have? In this Very Short Introduction Jonathan Herring provides an insight not only into what the law is, but why it is the way it is. It also looks at the future to consider what families will look like in the years ahead, and what new dilemmas the courts may face.

## **Family Law**

This open access handbook, the first of its kind, provides a comprehensive and carefully curated multidisciplinary and genre-spanning view of the state of the field of Critical Menstruation Studies, opening up new directions in research and advocacy. It is animated by the central question: “what new lines of inquiry are possible when we center our attention on menstrual health and politics across the life course?” The chapters—diverse in content, form and perspective—establish Critical Menstruation Studies as a potent lens that reveals, complicates and unpacks inequalities across biological, social, cultural and historical dimensions. This handbook is an unmatched resource for researchers, policy makers, practitioners, and activists new to and already familiar with the field as it rapidly develops and expands.

## **The Palgrave Handbook of Critical Menstruation Studies**

The law of commercial remedies raises a number of important doctrinal, theoretical and practical controversies which deserve sustained and rigorous examination. This volume explores such controversies and suggests solutions, which is essential to ensure that the law is defensible, clear and just. With contributions from twenty-three leading academic and practitioner experts, this book addresses significant issues in the law which, taken together, range across the entire remedial jurisdiction as it applies to commercial disputes. The book primarily focuses on the resolution of controversies in the English law of commercial remedies, but recent developments elsewhere are also considered, especially in other common law jurisdictions. The result provides remarkably comprehensive coverage of the field which will be of relevance to academics, students, judges and practitioners.

### **Commercial Remedies: Resolving Controversies**

This textbook is an ambitious and engaging introduction to the more advanced writings on company law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in company law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

### **Great Debates in Company Law**

The Prevent strategy, launched in 2007 seeks to stop people becoming terrorists or supporting terrorism both in the UK and overseas. It is the preventative strand of the government's counter-terrorism strategy, CONTEST. Over the past few years Prevent has not been fully effective and it needs to change. This review evaluates work to date and sets out how Prevent will be implemented in the future. Specifically Prevent will aim to: respond to the ideological challenge of terrorism and the threat we face from those who promote it; prevent people from being drawn into terrorism and ensure that they are given appropriate advice and support; and work with sectors and institutions where there are risks of radicalization which need to be addressed

### **Prevent strategy**

Transgender studies is a heterogeneous site of debate that is marked by tensions, border wars, and rifts both within the field and among feminist and queer theorists. Intersecting the domains of women's studies, sexuality, gender and transgender studies, *Debates in Transgender, Queer, and Feminist Theory* provides a critical analysis of key texts and theories, engaging in a dialogue with prominent theorists of transgendered identity, embodiment and sexual politics, and intervening in various aspects of a conceptually and politically difficult terrain. A central concern is the question of whether the theories and practices needed to foster and secure the lives of transsexuals and transgendered persons will be promoted or undermined - a concern that raises broader social, political, and ethical questions surrounding assumptions about gender, sexuality, and sexual difference; perceptions of transgendered embodiments and identities; and conceptions of divergent desires, goals and visions.

### **Debates in Transgender, Queer, and Feminist Theory**

*Progressive Corporate Governance for the 21st Century* is a wide ranging and ambitious study of why corporate governance is the shape that it is, and how it can be better. The book sets out the emergence of shareholder primacy orientated corporate governance using a study of historical developments in the United Kingdom and the United States. Talbot sees shareholder primacy as a political choice made by governments,

not a 'natural' feature of the inevitable market. She describes the periods of progressive corporate governance which governments promoted in the middle of the 20th century using a close examination of the theories of the company which then prevailed. She critically examines the rise of neoliberal theories on the company and corporate governance and argues that they have had a negative and regressive impact on social and economic development. In examining contemporary corporate governance she shows how regulatory styles as informed and described by prevailing regulatory theories, enables neoliberal outcomes. She illustrates how United Kingdom-derived corporate governance codes have informed the corporate governance initiatives of European and global institutions. From this she argues that neoliberalism has re-entered ex command transition economies through those United Kingdom and OECD inspired corporate governance Codes over a decade after the earlier failed and destructive neoliberal prescriptions for transition had been rejected. Throughout, Talbot argues that shareholder primacy has socially regressive outcomes and firmly takes a stand against current initiatives to enhance shareholder voting in such issues as director remuneration. The book concludes with a series of proposals to recalibrate the power between those involved in company activity; shareholders, directors and employees so that the public company can begin to work for the public and not shareholders.

## **Progressive Corporate Governance for the 21st Century**

Includes bibliographical references index.

## **Criminal Law: Text, Cases, and Materials**

European Convention on Human Rights – Article 10 – Freedom of expression 1. Everyone has the right to freedom of expression. This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers. This article shall not prevent States from requiring the licensing of broadcasting, television or cinema enterprises. 2. The exercise of these freedoms, since it carries with it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary. In the context of an effective democracy and respect for human rights mentioned in the Preamble to the European Convention on Human Rights, freedom of expression is not only important in its own right, but it also plays a central part in the protection of other rights under the Convention. Without a broad guarantee of the right to freedom of expression protected by independent and impartial courts, there is no free country, there is no democracy. This general proposition is undeniable. This handbook is a practical tool for legal professionals from Council of Europe member states who wish to strengthen their skills in applying the European Convention on Human Rights and the case law of the European Court of Human Rights in their daily work.

## **Protecting the right to freedom of expression under the European Convention on Human Rights**

This book is open access under a CC BY 4.0 license. This edited collection provides a comprehensive analysis of the differences and similarities between civil legal aid schemes in the Nordic countries whilst outlining recent legal aid transformations in their respective welfare states. Based on in-depth studies of Norway, Sweden, Finland, Denmark, and Iceland, the authors compare these cases with legal aid in Europe and the US to examine whether a single, unique Nordic model exists. Contextualizing Nordic legal aid in relation to welfare ideology and human rights, Hammerslev and Halvorsen Rønning consider whether flaws in the welfare state exist, and how legal aid affects disadvantaged citizens. Concluding that the five countries all have very different legal aid schemes, the authors explore an important general trend: welfare states increasingly outsourcing legal aid to the market and the third sector through both membership organizations

and smaller voluntary organizations. A methodical and compassionate text, this book will be of special interest to scholars and students of the criminal justice, the welfare state, and the legal aid system.

## **Outsourcing Legal Aid in the Nordic Welfare States**

Offers a distinctive account of the rule of law and legislative sovereignty within the work of Albert Venn Dicey.

## **A.V. Dicey and the Common Law Constitutional Tradition**
