1945 to 1955 (and later?) Models: An illustrated workshop manual covering Triumph twin-cylinder motorcycles from 1945 to 1955: This is a faithful reproduction of the Factory Workshop Manual No. 11, originally published in the US by Floyd Clymer. The major revision in the later pre-unit factory manuals was the addition of technical specifications for the T120 Bonneville (1959). Unfortunately, those revisions also included the deletion of repair data for rigid frame, sprung hub and 3T models. This makes the Factory Workshop Manual No. 11 the most comprehensive workshop manual available for pre-unit, twin-cylinder Triumph motorcycles up to and including 1962 models as it includes repair and maintenance data for the full line of rigid frame, sprung hub, swing-arm and 350cc models. Much more detailed than the owner's handbook, this manual provides the information necessary for the overhaul of engines, gear boxes, frames, swing-arm, forks, wheels, hubs, carburetors, electrics, etc., essential information for the enthusiast, owner or restorer of these classic motorcycles. Size: 5.5" x 8.5" with 224 pages and 84 illustrations, includes 8 pages of detailed technical specification charts and both an illustration index and a comprehensive index of contents. Applicable to the following models: 5T Speed Twin, T100 Tiger 100, TR5 Trophy, 6T Thunderbird, T110 Tiger 110 and 3T De-Luxe. Includes maintenance and repair data for the following engines: Twin Cylinder 350cc OHV, 500cc OHV and 650cc OHV.

The East India Company at Home, 1757–1857 explores how empire in Asia shaped British country houses, their interiors and the lives of their residents. It includes chapters from researchers based in a wide range of settings such as archives and libraries, museums, heritage organisations, the community of family historians and universities. It moves beyond conventional academic narratives and makes an important contribution to ongoing debates around how empire impacted Britain. The volume focuses on the propertied families of the East India Company at the height of Company rule. From the Battle of Plassey in 1757 to the outbreak of the Indian Uprising in 1857, objects, people and wealth flowed to Britain from Asia. As men in Company service increasingly shifted their activities from trade to military expansion and political administration, a new population of civil servants, army officers, surveyors and surgeons journeyed to India to make their fortunes. These Company men and their families acquired wealth, tastes and identities in India, which travelled home with them to Britain. Their stories, the biographies of their Indian possessions and the narratives of the stately

homes in Britain that came to house them, frame our explorations of imperial culture and its British legacies.

In the great tradition of the American almanac, *The Areas of My Expertise* is a brilliant and hilarious compendium of handy reference tables, fascinating trivia, and sage wisdom on all topics large and small. Although bestsellers such as *Poor Richard's Almanack* and *The Book of Lists* were certainly valuable, they also were largely true. Here is a different kind of handy desk reference, one in which all of the historical oddities and amazing true facts are sifted through the singular, illuminating imagination of John Hodgman—which is the nice way of saying: He made it all up. John Hodgman brings his considerable expertise to bear in answering all of the questions book buyers have been asking: -What are the mottoes of the 51 United States? **THE ANSWER IS PROVIDED** -Who were the U.S. presidents who had hooks for hands? **THE ANSWER IS PROVIDED** -What role does the Yale secret society “Skull and Bones” play in the secret world government? **THERE IS NO SECRET WORLD GOVERNMENT** -What was the menu at the first Thanksgiving, and did it include eels? Technically, that is two questions, but do not apologize, for John Hodgman shall answer them both . . . **LATER**. -Aside from a compendium of fake trivia, what is the best kind of book to write? **A SIMPLE TABLE OF THE 55 MOST DRAMATIC LITERARY SITUATIONS PROVIDES THE ANSWER**, and John Hodgman is the author of that table. Imagine if *The Book of Lists* had been rewritten by Peter Cook and Jorge Luis Borges under the pseudonym of “John Hodgman” and then renamed *The Areas of My Expertise*, and you will only begin to have a sense of the dizzying, uproarious, sublimely weird, and strangely wise journey that is contained within this book (along with all the pages and words). Perfect for anyone who thirsts for knowledge, and especially for collectors of books of fake trivia, *The Areas of My Expertise* offers through absurdity a better understanding of the world we share—and recognizes that while the truth may be stranger than fiction, it is never as strange as lies . . . or as true. Look out for John Hodgman's latest book, *Vacationland*, available from Viking in Fall 2017.

Disturbing History focuses on Fiji's people and their agency in responding to and engaging the multifarious forms of authority and power that were manifest in the colony from 1874 to 1914. By concentrating on the lives of ordinary Fijians, the book presents alternate ways of reconstructing the island's past. Couched in the traditions of social, subaltern, and people's histories, the study is an excavation of a large mass of material that tells the often moving stories of lives that have largely been overlooked by historians. These challenge conventional historical accounts that tend to celebrate the nation, represent Fiji's colonial experience as ordered and peaceful, or British tutelage as benevolent. In its contribution to postcolonial theory, *Disturbing History* reveals resistance as a constant but partial and untidy mix of other constituents such as collaboration, consent, appropriation, and opportunism, which together form the colonial landscape. In turn, colonialism in Fiji is shown as a force shaped in struggle, fractured and often fragile, with a presence and application in the daily lives of people that was often chaotic, imperfect, and susceptible to subversion. The book divides the period of study into two broad categories: organized resistance and everyday forms of resistance. The first examines the Colo War (1876), the Tuka Movement (1878–1891), the Seaqaqa War (1894), the Movement for Federation with New Zealand (1901–1903), the Viti Kabani Movement (1913–1917), and the various organized labor protests. The second half of the book addresses resistance manifested in the villages and plantations, including tax and land boycotts, violence and retributive justice, avoidance protest, petitioning, and women's resistance. In their entirety these forms reveal a complex web of relationships between powerful and subordinate groups and among subordinate groups themselves. The author concludes that

resistance cannot be framed as a totality but as a multilayered and multidimensional reality. In the wake of Fiji's present volatile climate, this book will aid readers in understanding the continuities and disjunctures in Fiji's interethnic and intraethnic relations.

Between 1594 and 1598, a preacher named Francois converted 72,000 Protestants to the Catholic Faith. These are his words. One of the most remarkable and well-documented events in Catholic history began when a young priest, St. Francis de Sales, volunteered to re-evangelize the Calvinists of the Chablais. Finding his preaching forcefully rejected, St. Francis de Sales shrewdly switched tactics and began a written apologetics campaign, posting pamphlets on walls and slipping them beneath doors under the cover of night. His defense of the Faith was so clear and thorough that at the end of four years nearly the entire population of 72,000 had returned to the Catholic Faith! These powerful little tracts are as relevant today as they were in the late 1500s. St. Francis de Sales draws support from Scripture, the Fathers and Doctors of the Church to address questions still frequently posed by modern Protestants. Revered as some of the most cogent arguments against Protestantism ever penned; they present a defense of the Catholic Faith that has never been equaled. Now with beautiful new cover, easier to read size, updated typesetting, and the original content. 320 pps PB St. Francis de Sales was one of the most effective Catholic apologists and evangelists of the past five centuries. Undoubtedly, he is the most effective apologist to Protestant Calvinists who has ever lived. Steve Wood (Family Life Center International)

An excellent new analysis of federalism and the EU that investigates their mutual impact. It shows how scholars of comparative politics increasingly include the EU among their cases when investigating the impact of federalism on key issues such as policy making. The last decade saw a new wave of scholarly publications hit the shores as research on federalism and on the EU came together. These emerging strands of research genuinely enrich our understanding of the EU and its politics. Despite this recent wave, the topic of federalism and the EU is still extremely fruitful. This volume contributes to the continuing debate at a moment in time when the EU is undergoing profound changes. It is structured around four interrelated dimensions: the constitutional/theoretical dimension the institutional vision the party/citizens dimension the policy dimension. This structure allows the reader to consecutively "funnel down" from the more theoretical and abstract levels to the more concrete policy oriented level.

Wounded in battle, ringleader of an officers' mutiny, survivor of a mauling by a tiger, candidate in a Parliamentary by-election – Patrick 'Tiger' Duff (1742–1803) had an eventful life. The son of a Speyside tenant farmer, he rose to the rank of General in the East India Company army and retired to a country estate near Turriff. He made a fortune in India, in part because of his family connections with the Gordons of

Letterfourie. James and Alexander Gordon were successful wine merchants in Madeira. They not only provided for Patrick's education, but also employed his brothers James and Robert in the wine trade. In turn, Patrick was able to win business for the partnership amongst the hard-drinking British in India. Scottish merchants, such as the Gordons, were an important part of the British merchant community in Madeira. Wealth from both sources, the empire of conquest in India and the empire of commerce exemplified by Madeira, flowed back into Scotland and fuelled the process of agricultural improvement.
