

READ ONLINE SERPENT IN THE SKY HIGH WISDOM OF ANCIENT EGYPT BY WEST JOHN ANTHONY NEW EDITION 1996

Serpent in the Sky

John Anthony West's revolutionary reinterpretation of the civilization of Egypt challenges all that has been accepted as dogma concerning Ancient Egypt. In this pioneering study West documents that: Hieroglyphs carry hermetic messages that convey the subtler realities of the Sacred Science of the Pharaohs. Egyptian science, medicine, mathematics, and astronomy were more sophisticated than most modern Egyptologists acknowledge. Egyptian knowledge of the universe was a legacy from a highly sophisticated civilization that flourished thousands of years ago. The great Sphinx represents geological proof that such a civilization existed. This revised edition includes a new introduction linking Egyptian spiritual science with the perennial wisdom tradition and an appendix updating West's work in redating the Sphinx. Illustrated with over 140 photographs and line drawings.

Gods of Eden

A groundbreaking historical documentation of the secret history of pre-Pharonic Egypt and the race of angels that built it. •By the author of *From the Ashes of Angels and Gateway to Atlantis* (more than 30,000 copies sold in the United Kingdom). •Unlocks the secrets of how the Great Pyramids and the Sphinx were built. •Explains the traces left by the race of Elder gods that founded ancient Egypt through ancient texts of the Hall of Records. •Proves the foundations of ancient astronomy 10,000 years ago. Hidden deep below Egypt's Giza plateau is perhaps the key to unlocking the mysteries of the Great Pyramid, one of the seven wonders of the world. Built using a technology unequaled even today, the ancient Egyptians claimed they inherited their advanced culture from a race of Elder gods who lived during a previous age known as Zep Tepi, the First Time. In his earlier companion book *From the Ashes of Angels*, renowned historical writer Andrew Collins provided historical and scientific evidence showing how these Elder gods, who were the flesh and blood members of a race of fallen angels, founded ancient Egypt. Now, in *Gods of Eden*, he describes the remarkable achievements of their culture. Assembling clues from archaeology, mythology, and religion, Collins shows us how this great society mastered acoustic technology and employed the use of sound to raise heavy objects into the air and pierce holes through solid rock. It was with this technology that they were able to construct gigantic structures that have marveled adventurers and archaeologists worldwide. With findings based on more than 20 years of research and scholarship, Collins reveals the fascinating historical destiny of this culture of fallen angels and the imprints and legacies they left behind at the genesis of civilization.

Mystery of the White Lions

The inspiring firsthand account of one woman's journey into African shamanism and the mysteries of the most sacred animal on the continent: the legendary White Lion In 1991, Linda Tucker was rescued from a pride of lions in the Timbavati game region by a medicine woman known as the "Lion Queen." So began Linda's lifelong journey into the wisdom and ceremonies of Old Africa, in which humans and lions are able to cross the species barrier. Such knowledge is in accordance with the most guarded secrets of Ancient Egypt and humankind's greatest riddle, the Sphinx. Scientists in our day have established that humankind's most significant evolutionary leap occurred as a result of our ancestors' interaction with great cats. The White Lion is a genetic rarity within *Panthera leo*, and occurred in just one region on Earth: Timbavati. Today, White

Lions form the center of the notorious “canned” trophy-hunting industry—hand-reared captive lions, shot in enclosures for gross sums of money. By contrast, shamans believe that killing a “lion sun god” is the ultimate sacrilege. How the human species treats such precious symbols of God in nature may determine how nature treats the human species. Whether we view them as prophetic “Lions of God” or simply as rare genetic mutations, the story of the White Lions is a true legend unfolding in our own extraordinary times. Inspiring, captivating, and thoroughly researched, *Mystery of the White Lions* is an unforgettable portrait of these magnificent beasts and of the overwhelming love that has driven Linda's every action to save them. “Through understanding the White Lion we will understand ourselves and our great role in the chain of being.”
—Deepak Chopra

The Hermetic Code in DNA

An examination of the precise code that connects ancient spirituality with modern science • Shows how the numerical patterns in ancient philosophies are evident in both the structure of the universe and the helical structure of DNA • Reveals that music theory comes from an intuitive understanding of the resonant harmony of the cosmos Many have observed the distinct numerical patterns embedded in ancient philosophies and religions from all over the world; others have noted that these same patterns are apparent in many of the theories of groundbreaking science. Michael Hayes reveals that there is a precise code, the Hermetic Code, that connects these patterns--information once known to ancient cultures but apparently lost over time. Mirrored in the structure of this code are the ordering principles of the universe and, intriguingly, also the harmonic ratios of music. Our notions of what is harmonious in music may therefore arise not from an abstract aesthetic sense but as a response to an intuition of a fundamental cosmic harmony. The resonance between biology and cosmology shows that life is music, complete with “overtones”--nowhere more strikingly present than in the helical structure of life itself: DNA.

Imagining the World into Existence

Reveals the secret language and words of power that enabled the ancient Egyptians to imagine the world into existence • Reveals ancient Egyptian Mystery teachings on immaculate conception, transubstantiation, resurrection, and eternal life • Explores the shamanic journeys that ancient Egyptian priests used to view the unconscious and the afterlife • Provides the essential spiritual tools needed to return to Zep Tepi, the creative source Drawing from the Egyptian Book of the Dead, the Pyramid texts, the Book of Thoth, and other sacred hieroglyphic writings spanning the three millennia of the Egyptian Mystery Traditions, Normandi Ellis reveals the magical language of creation and words of power that enabled the ancient Egyptians to act as co-creators with the gods. Examining the power of hieroglyphic thinking--how thoughts create reality--and the multiple meanings behind every word of power, the author shows how, with the Neteru, we imagine the world into existence, casting a spell of consciousness over the material world. Uncovering the deep layers of meaning and symbol within the myths of the Egyptian gods and goddesses, Ellis investigates the shamanic journeys that ancient Egyptian priests used to view the unconscious and the afterlife and shares their initiations for immaculate conception, transubstantiation, resurrection, and eternal life—initiations that later became part of the Christian mystery school. Revealing the words of power used by these ancient priests/sorcerers, she explains how to search for the deeper, hidden truths beneath their spells and shows how ancient Egyptian consciousness holds the secret of life itself. Revealing the initiatory secrets of the Osirian Mystery school, Ellis provides the essential teachings and shamanic tools needed to return to Zep Tepi--the creative source--as we face the transitional time of radical change currently at hand.

The Sound of Meaning: Comparative Linguistics of Ancient Egyptian, Maya and Nahuatl

Illustrating the power of oratory in the 1960s and its successful merging with the art of that era, this text examines the significance of Malcolm X as a literary muse for Haki Madhubuti, one of America's premiere poets and essayists. Long after the death of Malcolm X, Haki Mudhubuti continued to expound on X's major

oratorical themes, including the effort to destroy the racial appellation \"Negro\" and to create new definitions for words that relate to Africa. X's persistence in oratory during the 1960s influenced an art movement that changed the psychology and behavior of American Blacks. Through a historical and literary analysis of Black poetry, this text charts how selected writers exhibited great tensions around issues of race until the arrival of the 1960s generation of artists. This book contributes to a broader understanding of Malcolm X and his impact on American writing and culture.

Malcolm X and the Poetics of Haki Madhubuti

Provides convincing evidence that angels, demons, and fallen angels were flesh-and-blood members of a giant race predating humanity, spoken of in the Bible as the Nephilim. • Indicates that the earthly paradise of Eden was a realm in the mountains of Kurdistan. • By the author of Gateway to Atlantis. Our mythology describes how beings of great beauty and intelligence, who served as messengers of gods, fell from grace through pride. These angels, also known as Watchers, are spoken of in the Bible and other religious texts as lusting after human women, who lay with them and gave birth to giant offspring called the Nephilim. These religious sources also record how these beings revealed forbidden arts and sciences to humanity--transgressions that led to their destruction in the Great Flood. Andrew Collins reveals that these angels, demons, and fallen angels were flesh-and-blood members of a race predating our own. He offers evidence that they lived in Egypt (prior to the ancient Egyptians), where they built the Sphinx and other megalithic monuments, before leaving the region for what is now eastern Turkey following the cataclysms that accompanied the last Ice Age. Here they lived in isolation before gradually establishing contact with the developing human societies of the Mesopotamian plains below. Humanity regarded these angels--described as tall, white-haired beings with viperlike faces and burning eyes--as gods and their realm the paradise wherein grew the tree of knowledge. Andrew Collins demonstrates how the legends behind the fall of the Watchers echo the faded memory of actual historical events and that the legacy they have left humanity is one we can afford to ignore only at our own peril.

From the Ashes of Angels

Tools to powerfully write about and manifest your life using the power found in the sacred sites of ancient Egypt • Reveals how to create meaning from one's life experiences and manifest new destinies through spiritual writing • Contains meditations and creative writing exercises exploring sacred themes in the Egyptian Book of the Dead and other hieroglyphic texts of ancient Egypt • Shares transformative and inspiring pieces written by those who've attended the authors' Egyptian sacred tours Within each of us is a story, a sacred story that needs to be told, of our heroic efforts and of our losses. The scribes of ancient Egypt devoted their lives to the writing of sacred stories. These technicians of the sacred were masters of hieroglyphic thinking, or heka--the proper words, in the proper sequence, with the proper intonation and the proper intent. Learning heka provided scribes with the power to invoke and create worlds through their words and thoughts. To the writer, heka is a magical way to create meaning from experience. Through heka we manifest new visions and new relationships to ourselves and to others. We can make new art filled with beauty and light. Revealing the spiritually transformative power of writing, the authors take us on a journey of self-discovery through the sacred sites of Egypt, from the Temple of Isis to the Great Pyramid of Giza. Through meditations and creative writing exercises exploring the powerful themes found in the hieroglyphic texts of ancient Egypt and the Egyptian Book of the Dead, they show how, through writing, we can live beyond the ordinary, give our dreams form, and discover who we really are and what our lives really mean. Sharing transformative and inspiring pieces written by those who've attended their Egyptian sacred tours, the authors reveal how writing your spiritual biography allows you to reconnect to the creativity and divine within, face your fears, offer gratitude for what you have, manifest new destinies, and recognize your life as part of the sacred story of Earth.

Invoking the Scribes of Ancient Egypt

Part I of this book begins with a scriptural study of all Sheba references, particularly the origins and genealogy of the name and its connections with Hebrew patriarchs such as Abraham and kings Saul and David; it later explores the literature and legends surrounding king Solomon and his trade negotiations with Sheba. The text analyzes theories and links between the Queen of Sheba and Pharaoh Hatshepsut, and concludes that Sheba may well be the Pharaoh based upon linguistic associations and the related stories from a multitude of regions and countries. Part II travels into ancient Arabian, Yemeni, Ethiopian, and Eritrean tales of the Queen of Sheba, and examines the mention of Sheba in an array of Jewish, Christian, and Muslim texts. It scrutinizes associations between ancient gods and pharaohs, particularly the similarity of their iconographic representations, the meaning of their symbols and signs that connect with Sheba legends and Hatshepsut's history, the real extent and location of her vast empire.

The Queen of Sheba

In this guide to the cosmology of ancient Egypt, Jeremy Naydler recreates the experience of living in another time and place. Temple of the Cosmos explores Egypt's sacred geography and mythology; but more importantly, it reveals with unprecedented clarity an ancient consciousness in tune with the rhythms of the earth. The ancient Egyptians experienced their gods not as remote beings but rather as psychic and natural forces, transpersonal energies that played a part in everyday life. This direct experience of the gods shaped the Egyptian concepts of human development, healing, magic, and the soul's journey through the Underworld as described in the Books of the Dead. While building on the pioneering efforts of R. A. Schwaller de Lubicz and others, Temple of the Cosmos is much more than a recapitulation of previous theories of Egyptian spirituality. Rather, this book breaks new ground by placing the work of other Egyptologists in an original, magical context. The result is a brilliant reimagining of the Egyptian worldview and its sacred path of spiritual unfolding.

Temple of the Cosmos

Will humans overcome their technical, material worldview and find their way back to the freedom of the spiritual world? This can only succeed if we can realign with the lost legacies of ancient times and can decipher that wisdom. Scientists and spiritual explorers alike are striving to penetrate the hidden worlds of Giza. The discoveries they have made are nothing short of breathtaking. Some may suspect it while others already know: Here, both in and below the pyramids, lies the key to a liberating truth for all those who seek it—the GIZA LEGACY. In this groundbreaking book, Rico Paganini provides a fascinating overview of developments and discoveries involving the pyramids and the Sphinx. Modern technology combined with spiritual sensing abilities enabled him to penetrate spheres that have been blocked until now. In the course of two excursions to Egypt over a period of seven years, a world-shattering realization came to him: The real secret of the pyramids has never yet even been recognized. It has little to do with how they were built and their incomprehensible size and geometry, but instead it has to do with their metaphysical significance and their function as a guidepost to the subterranean world beneath them. In this book the author takes us along on some of his expeditions. He meticulously documented all that he experienced in photographs and sketches. The book features hundreds of photographs as well as maps and 3D graphics, which give us an impression of the structures found both aboveground and belowground in Giza and of newly discovered chambers and even the legendary Hall of Records. Giza Legacy paints a picture of a fascinating world in which the meaning of Giza is placed in a greater context that goes far beyond the borders of Egypt. It is nothing less than a new, or rediscovered, human history traced far back to the lost continents of Atlantis and Lemuria. The clues are there for all to see wherever the ancient megalithic structures remain. And the clues extend far beyond the distant past into the cosmos and the far-off constellations of Orion, Sirius and the Pleiades. Rico Paganini reveals the correlations that have until now been taboo. In a fascinating and methodical manner, he opens our eyes to the spiritual world behind the mundane material one, showing us how, through archeological discoveries, we can gain access to an entirely new worldview. However, a shadow has been cast upon the historical remains of the three ancient cultures. For years and with increasing tempo, a far-reaching wall is being built around the pyramids and Sphinx. The impressively documents the

dimensions and significance of this dramatic development. For if they are here, both inside and beneath the structures—the answers to great questions of humanity lying hidden—then should scientific and spiritual researchers remain excluded from their discovery? Who or what lies behind the ridiculously extensive Giza Wall? Where do we come from? Where are we going? This book will affect those who ask themselves such questions. It is not just an extremely thorough report on the world wonders in Egypt but a report about the spiritual hope of humankind.

GIZA LEGACY

An inspirational call for a return to the tenets of traditional architecture as a remedy for the dehumanizing standards of modern architecture • Explains how modern architecture is emblematic of our current estrangement from the spiritual principles that shaped humanity's greatest civilizations • Reveals how the ancient laws of sacred proportion and harmony can be restored The ugly buildings that characterize the modern landscape are inferior not only to the great cathedrals of medieval Europe and the temples of ancient Egypt and Greece, but even to lesser buildings of the more recent past. The great masterworks of our ancestors spoke to humanity's higher nature. Architect Herbert Bangs reveals how today's dysfunctional buildings bring out the worst in humanity, reinforcing that which is most base within us. He shows how, through the ancient laws of proportion and number, architecture once expressed the harmonious relationship between man and the cosmos. In early times, the architect worked within a sacred and esoteric tradition of creating structures through which human beings could gain insight into the nature of the divine reality. Today, that tradition has been abandoned in favor of narrowly defined utilitarian principles of efficiency and economy. In *The Return of Sacred Architecture*, Bangs provides the key to freeing architecture from the crude functionality of the twentieth century: the architects of the modern human landscape must find the deep-felt connection to the cosmos that guided the inner lives of those who built the temples of the past. The form of their buildings will then reflect the sacred patterns of geometry and proportion and bring forth greater harmony in the world.

Hamlet's Mill

A radical reinterpretation of the Pyramid Texts as shamanic mystical wisdom rather than funerary rituals • Reveals the mystical nature of Egyptian civilization denied by orthodox Egyptologists • Examines the similarity between the pharaoh's afterlife voyage and shamanic journeying • Shows shamanism to be the foundation of the Egyptian mystical tradition To the Greek philosophers and other peoples of the ancient world, Egypt was regarded as the home of a profound mystical wisdom. While there are many today who still share that view, the consensus of most Egyptologists is that no evidence exists that Egypt possessed any mystical tradition whatsoever. Jeremy Naydler's radical reinterpretation of the Pyramid Texts--the earliest body of religious literature to have survived from ancient Egypt--places these documents into the ritual context in which they belong. Until now, the Pyramid Texts have been viewed primarily as royal funerary texts that were used in the liturgy of the dead pharaoh or to aid him in his afterlife journey. This emphasis on funerary interpretation has served only to externalize what were actually experiences of the living, not the dead, king. In order to understand the character and significance of the extreme psychological states the pharaoh experienced--states often involving perilous encounters with alternate realities--we need to approach them as spiritual and religious phenomena that reveal the extraordinary possibilities of human consciousness. It is the shamanic spiritual tradition, argues Naydler, that is the undercurrent of the Pyramid Texts and that holds the key to understanding both the true nature of these experiences and the basis of ancient Egyptian mysticism.

The Return of Sacred Architecture

Ancient star lore exploring the mysterious location of Pueblos in the American Southwest, circa 1100 AD, that appear to be a mirror image of the major stars of the Orion constellation. Many readers are familiar with the correlation between the pyramids of Egypt and the stars of Orion. Beginning in 1100 A.D. on the Arizona

desert, the Hopi constructed a similar pattern of villages that mirrors all the major stars in the constellation. \"As Above, so Below.\" The Orion Zone explores this ground-sky relationship and its astounding global significance. Packed with diagrams, maps, astronomical charts, and photos of ruins and rock art, this useful guidebook decodes the ancient mysteries of the Pueblo Indian world.

Shamanic Wisdom in the Pyramid Texts

The Encyclopedia of Pseudoscience is the first one-volume, A-to-Z reference that identifies, defines, and explains all of the terms and ideas dealing with the somewhat murky world of the \"almost sciences\". Truly interdisciplinary and multicultural in scope, the Encyclopedia examines how fringe or marginal sciences have affected people throughout history, as well as how they continue to exert an influence on our lives today. This comprehensive reference brings together: superstitions and fads that are part of popular culture, such as fortune telling; healing practices once thought marginal that are now become increasingly accepted, such as homeopathy and acupuncture; frauds and hoaxes that have occurred throughout history, such as UFOs; mistaken theories first put forward as serious science, but later discarded as false, such as phrenology and racial typing, etc. More than 2000 extensively cross-referenced and illustrated entries cover prominent phenomena, major figures, events topics, places and associations.

The Orion Zone

The Miracle of Death comes to us at a time when transformation is necessary for our survival. Every page of this testament to life loosens our grip on the imagination and opens us to dimensions of the mind that speak in images, metaphors and symbols. We emerge from these experiences surrounding death with an expanded view of life, a path more illuminated, and the courage to live by the wisdom of our visions. We adjust our senses to experience new ways of hearing, seeing and knowing what is real. We go inward on our own journeys to confront the mysteries of our existence, the mysteries of life and death, and we return knowing how to live our lives. Foreword by Anne Baring. Includes Index & Further Reading.

Encyclopedia of Pseudoscience

Visionary historian Arguelles unravels the harmonic code of the ancient Maya providing valuable keys to understanding the next twenty years of human evolution.

The Miracle of Death

This handbook in practical spirituality proposes that the level of stress, violence, fear and disconnect from Nature in the global society has risen in direct proportion to a fall in the collective level of conscious awareness. In order to reverse this trend a conscious impulse is required. Human beings need to rediscover the mystical underpinning of all religions and the engine of spiritual transformation: the art of presence. Only by learning to be present and stay present is it possible to dissolve harmful energy - in the form of false opinions and negative feelings - and create positive energy that imbues actions with intelligence, compassion and respect for the sacredness of all life. To this end, a practice in sensory awareness is offered. It is called 'the Pause'. Pausing affirms the body-mind continuum by empowering the senses as conduits of conscious awareness. When pausing is then applied to ordinary activities such as speaking, working, thinking and relating to others, spiritual evolution accelerates. The fruit of a re-awakened life is healing — for ourselves, for society, and for the entire Earth community.

The Mayan Factor

A comprehensive study of the major occult writings on Atlantis • Fully examines the many occult teachings on Atlantis, including those from G. I. Gurdjieff, Madame Blavatsky, Julius Evola, Edgar Cayce, Fabre

d'Olivet, and Dion Fortune • Shows how these writings correlate with the concept of cyclical history, such as the Mayan calendar and 2012, the Age of Aquarius, and the four Yugas • By a renowned scholar, author, editor, and translator of more than 30 books Atlantis has held a perennial place in the collective imagination of humanity from ancient Greece onward. Many of the great minds of the occult and esoteric world wrote at length on their theories of Atlantis--about its high culture, its possible location, its ultimate demise, and their predictions of a return to Atlantean enlightenment or the downfall of modern society. Beginning with a review of the rationalist writings on Atlantis--those that use geographic and geologic data to validate their theories--renowned scholar Joscelyn Godwin then analyzes and compares writings on Atlantis from many of the great occultists and esotericists of the 19th and 20th centuries, including Fabre d'Olivet, G. I. Gurdjieff, Guido von List, Julius Evola, Edgar Cayce, Dion Fortune, and René Guénon, whose writings often stem from deeper, metaphysical sources, such as sacred texts, prophecy, or paranormal communication. Seeking to unravel and explain the histories and interpretations of Atlantis and its kindred myths of Lemuria and Mu, the author shows how these different views go hand-in-hand with the concept of cyclical history, such as the Vedic system of the four Yugas, the Mayan calendar with its 2012 end-date, the theosophical system of root races, and the precession of the equinoxes. Venturing broader and deeper than any other book on Atlantis, this study also covers reincarnation, human evolution or devolution, the origins of race, and catastrophe theory.

Pause Now

Paul LaViolette's 25 years of research into the precisely timed radio pulses from extraterrestrial sources known as pulsars shows that they are distributed in the sky in a nonrandom fashion, often marking key galactic locations, and that their signals are of intelligent origin, warning about a past galactic core explosion that could recur in the near future.

Silbury Dawning

Final volume in a trilogy, the first of which is the author's *The Giza death star*, and the second of which is his *The Giza death star deployed*.

Atlantis and the Cycles of Time

Emergentism - New form of Emergentism; Ethics & Moral Philosophy; Philosophy of Mind; Popular Science; Self-Improvement; Phenomenology; Existentialism. Emergentism is the study and tentative explanation of how order arises in everything from quantum fluctuations to human consciousness. The aim of The Emergent Method is to use the new philosophy of Emergentism and the findings of modern science to challenge the way we think, and thereby help fulfil our highest purposes.

Decoding the Message of the Pulsars

Via paleontology and ritual cannibalism, Wilson's tour through time and space sets out to reconstruct that ancient knowledge. In a fascinating exploration of the remote depths of history, *From Atlantis to the Sphinx* takes us from the structure of the pyramids and the purpose of their tortuous interior shafts, to the prehistoric cities of America by way of ancient sea maps apparently showing the outlines of Antarctica before it was covered by ice.

The Giza Death Star Destroyed

The Whole Elephant Revealed offers clear insights into the existence and operation of universal laws and the golden ratio. It is a synthesis based on common insights found in all wisdom traditions into the operation of universal laws on the one hand and on cutting-edge scientific discoveries that are in line with those insights

on the other hand. These principles are called universal because they work on all levels of existence, apply to everything that exist and create order and harmony in the universe. Insights into the operation of the universal laws reveals a whole new worldview. It helps us to understand how everything works in the universe, who we really are and how we can make conscious choices that are more in line with these universal laws. Above all it helps us to understand what works and what doesn't work in the long term. Everything that operates in line with the universal laws, follows the path of least resistance and is in harmony with the greater whole. It makes us realize that while everything in the universe works in harmony with these principles, many aspects of our personal life and our Western culture are not in line with the operation of these underlying principles. If we choose to act in line with the operation of the universal laws, it will go easier, will be more in tune with who we really are and more in harmony with the greater whole. This choice is hard to make though, if we don't know those principles. For that reason the rediscovery of the working of these principles seems to be of extreme importance. In this time of great changes and global unbalance a growing number of people begin to feel the need for a clear and well-founded insight into the universal laws, because this gives an understanding of what is needed to restore the balance and harmony in ourselves as well as worldwide. Because the nature of these principles is universal, they apply to all aspects of our individual and social life. Therefore they can be used as a frame of reference for all personal and social transformations which aim at a greater harmony within ourselves and with the greater whole. ,

The Emergent Method: A Modern Science Approach to the Phenomenology and Ethics of Emergentism

Dogon cosmology provides a new Rosetta stone for reinterpreting Egyptian hieroglyphs • Provides a new understanding of Egyptian hieroglyphs as scientific symbols based on Dogon cosmological drawings • Use parallels between Dogon and Egyptian word meanings to identify relationships between Dogon myths and modern science In *The Science of the Dogon*, Laird Scranton demonstrated that the cosmological structure described in the myths and drawings of the Dogon runs parallel to modern science--atomic theory, quantum theory, and string theory--their drawings often taking the same form as accurate scientific diagrams that relate to the formation of matter. Scranton also pointed to the close resemblance between the keywords and component elements of Dogon cosmology and those of ancient Egypt, and the implication that ancient cosmology may also be about actual science. *Sacred Symbols of the Dogon* uses these parallels as the starting point for a new interpretation of the Egyptian hieroglyphic language. By substituting Dogon cosmological drawings for equivalent glyph-shapes in Egyptian words, a new way of reading and interpreting the Egyptian hieroglyphs emerges. Scranton shows how each hieroglyph constitutes an entire concept, and that their meanings are scientific in nature. Using the Dogon symbols as a "Rosetta stone," he reveals references within the ancient Egyptian language that define the full range of scientific components of matter: from massless waves to the completed atom, even suggesting direct correlations to a fully realized unified field theory.

From Atlantis to the Sphinx

Presents conclusive evidence that ancient Egypt was originally the remnant of an earlier, highly sophisticated civilization • Supports earlier speculations based on myth and esoteric sources with scientific proof from the fields of genetics, engineering, and geology • Provides further proof of the connection between the Mayans and ancient Egyptians • Links the mystery of Cro-Magnon man to the rise and fall of this ancient civilization In the late nineteenth century, French explorer Augustus Le Plongeon, after years of research in Mexico's Yucatán Peninsula, concluded that the Mayan and Egyptian civilizations were related--as remnants of a once greater and highly sophisticated culture. The discoveries of modern researchers over the last two decades now support this once derided speculation with evidence revealing that the Sphinx is thousands of years older than Egyptologists have claimed, that the pyramids were not tombs but geomechanical power plants, and that the megaliths of the Nabta Playa reveal complex astronomical star maps that existed 4,000 years before conventional historians deemed such knowledge possible. Much of the past support for prehistoric civilization has relied on esoteric traditions and mythic narrative. Using hard scientific evidence from the

fields of archaeology, genetics, engineering, and geology, as well as sacred and religious texts, Malkowski shows that these mythic narratives are based on actual events and that a highly sophisticated civilization did once exist prior to those of Egypt and Sumer. Tying its cataclysmic fall to the mysterious disappearance of Cro-Magnon culture, *Before the Pharaohs* offers a compelling new view of humanity's past.

The Whole Elephant Revealed

The Holy Grail has become a popular field of study in recent years, however most books on the subject are written by authors who are not themselves initiated into the mystery school tradition of the Grail. *Revelation of the Holy Grail* is one of the first books on the subject which is written by an initiate within several of the Knighthood Orders associated with the Grail Tradition. This book provides many previously unpublished facts about the history and tradition of the Grail movement, which includes some of the most influential people in human history. The Quest of the Holy Grail has proved to really be about the quest for human civilization. It has spawned not only the greatest political movements in history, but also it has been the cornerstone of human technology. Alchemy, Hebrew Mysteries, Templar Secrets, ancient technologies, Gnostic traditions, and secret societies have all been involved in this exciting history which is the backbone of our modern day world.

Sacred Symbols of the Dogon

This book contains the first published results of Schwaller's 12 years of research at the temple of Luxor and its implications for interpreting the symbolic and mathematical processes of the Egyptians through their sacred architecture.

Children of the Sun God

Is it a mere coincidence that pyramids are found throughout our globe? Did cultures ranging across vast spaces in geography and time, such as the ancient Egyptians; early Buddhists; the Maya, Inca, Toltec, and Aztec civilizations of the Americas; the Celts of the British Isles; and even the Mississippi Indians of pre-Columbus Illinois, simply dream the same dreams and envision the same structures? Robert M. Schoch—one of the world's preeminent geologists in recasting the date of the building of the Great Sphinx—believes otherwise. In this dramatic and meticulously reasoned book, Schoch, like anthropologist Thor Heyerdahl in his classic *Kon-Tiki*, argues that ancient cultures traveled great distances by sea. Indeed, he believes that primeval sailors traveled from the Eastern continent, primarily Southeast Asia, and spread the idea of pyramids across the globe, particularly to the New World of the Americas where they abounded until the days of the Conquistadors.

Before the Pharaohs

How ancient Egyptians understood quantum theory • Investigates the history of how modern religion and the Age of Science were inspired by the sacred science of the ancients • Examines how quantum theory explains that the cosmos arises from consciousness • Reveals the unanimity between Schwaller de Lubicz's "sacred science" and the science of a cosmos governed by quantum mechanics Since the dawn of the Age of Science humankind has been engaged in a methodical quest to understand the cosmos. With the development of quantum mechanics, the notion that everything is solid matter is being replaced with the idea that information or "thought" may be the true source of physical reality. Such scientific inquiry has led to a growing interest in the brain's unique and mysterious ability to create perception, possibly through quantum interactions. Consciousness is now being considered as much a fundamental part of reality as the three dimensions we are so familiar with. Although this direction in scientific thought is seen as a new approach, the secret wisdom of the ancients presented just such a view thousands of years ago. Building on René A. Schwaller de Lubicz's systematic study of Luxor's Temple of Amun-Mut-Khonsu during the 1940s and '50s, Edward Malkowski shows that the ancient Egyptians' worldview was not based on superstition or the invention of myth but was

the result of direct observation using critical faculties attuned to the quantum manifestation of the universe. This understanding of reality as a product of human consciousness provided the inspiration for the sacred science of the ancients--precisely the philosophy modern science is embracing today. In the philosophical tradition of Schwaller de Lubicz, *The Spiritual Technology of Ancient Egypt* investigates the technical and religious legacy of ancient Egypt to reveal its congruence with today's "New Science."

Revelation of the Holy Grail

'Names and addresses of contemporary poets and fiction writers whose work has been published in the United States.'

The Temple in Man

Looks at ancient Egyptian symbols related to creation, harmony, death, and afterlife, and shows jewelry, paintings, architecture, and inscriptions

Voyages of the Pyramid Builders

The telephone rings. It is a grammar school friend you have not heard from in 30 years, but just now, while going through a box of old photographs, you came across his picture. Is this coincidence, or do such events have deeper significance? This engaging and penetrating book opens readers to the world of meaningful coincidences. Weaving ancient insights with contemporary teachings on sacred psychology, astrology, and subtle energy. Grasse shows readers how to understand the deeper meaning of the symbols and synchronicities of their everyday lives.

The Spiritual Technology of Ancient Egypt

Sanders' images are neither descriptive nor picturesque--they are intellectually demanding and uncompromising witnesses of a 'here-and-now' experience of ancient Egypt. --Dorothea Arnold
