It is considered as a piano bible for dummies, because it teaches how to play the piano from scratch; with no assumptions of any previous knowledge about the piano on the side of the learner. Any concept introduced here, is represented in a very clear, easy to understand way. Reading music has never been made easier; as the book adopts a rather childlike approach in learning how to read music. They say the best way to teach any skill is to identify the different aspects that make up that skill, and to work towards perfecting all of those aspects; so that the pupil, at the end, graduates to perfection in every aspect of that skill. THE PURPOSE OF THIS BOOK IS TO TEACH YOU HOW TO PLAY PIANO SHEET MUSIC IN 32 DAYS. Reading Piano Music involves a whole lot of individual aspects. This book identifies and groups all of those different aspects, treats them as individual skills, combines these individual skills together, and the final result is that the learners achieve an overall perfection that is incomparable. The techniques used to teach the learners in this book saves them a hundred hours of practice. This book equally identifies the need and importance of graphics in learning how to play piano music; and as such makes optimum use of highly retainable graphics. It's equally worth stating that this book is linked to a chain of You-tube Videos created specifically for the purpose of demonstrating every single lesson in this book. (Let me quickly point out that the lessons are still being created as of now; and as such, not presently available on You-tube, but you will find a notice here as soon as they are available.) This is no book speaking the language of "Learn the Piano in one day." Rather, the lessons in this book are to be ruminated in 30 days-A chapter per day. If you are one who has the time to put into this, no matter your age, I can assure you that there is no better choice.

Now your students will have the technical tools needed to achieve artistic performances. They will encounter skills in four areas—playing naturally (physical aspects), moving freely (around the keyboard), playing beautifully (tone production) and playing artistically. The technical goals are accomplished through three types of activities—patterned exercises with necessary repetitions to make the technique feel natural, artistic etudes that showcase the student's technique in an artistic musical setting and appealing and descriptive exercises called Technique Tools. The nine Technique Tools in Level 1A relate to relaxed shoulders, arm weight, moving freely, strong fingertips, finger weights, repeated notes, thumb position, finger independence and gentle hand rock. Each page in the Technique Book correlates with a specific page in the Lesson Book; when the Lesson, Theory, Performance and Technique books are used together, they offer a fully integrated and unparalleled comprehensive approach to piano instruction.
