BJ Casey, Weill Cornell Medical College - Beyond Simple Models of Self-Control - BJ Casey, Weill Cornell Medical College - Beyond Simple Models of Self-Control by PsychologicalScience 1,347 views 9 years ago 22 minutes - Presented May 22, 2015 as part of the Presidential Symposium at the 27th APA Annual Convention, New York City.

Intro

What is Adolescence?

Beyond Simple Models of Self-Control to Circuit-Based Accounts of Adolescent Behavior

The Developmental Mismatch in Structural Brain Maturation during Adolescence

IMBALANCE IN TEEN BRAIN between primitive regions involved in desire, fear, rage and those involved in reason and self control

What is Self Control? The ability to suppress immediate or maladaptive actions, desires or emotions in favor of adaptive or goal-directed ones (Casey 2015 Ann Rev Psych)

ASSESSMENT OF IMPULSE CONTROL (Wack the Mole)

Development of impulse control

Development of Prefrontal Cortex is associated with more Impulse Control

Representation of rewards/ incentives across development

Impact of Incentives (e.g., food, money) on Behavior

Incentives (e.g., food, money, social cue) can alter behavior without conscious awareness

Impact of Rewards on Developing Brain

Accumbens activity is associated with risky behavior  
Differential Development of Accumbens and Orbitofrontal Activations  
Impact of Incentives (positive social cues) on Self Control  
Individual Differences in Delay of Gratification The Marshmallow Test  
Low Delayers show less PFC activity during nogo trials  
Impact of Threat on Self Control  
Amygdala-Accumbens connectivity positively predicts Impulsivity to Threat and Appetitive Cues  
When does the capacity for self regulation mature?  
Collaborative Approach to Liver Transplantation | Weill Cornell Medicine - Collaborative Approach to Liver Transplantation | Weill Cornell Medicine by Weill Cornell Medicine 227 views 10 months ago 2 minutes, 29 seconds - Interested in learning more about our students and faculty?
