How to Recone a Speaker - How to Recone a Speaker by Uncle Doug 253,589 views 7 years ago 21 minutes - This video covers every step in the re-coning of a 1957 Jensen P10R Alnico 5 speaker from the tweed Vibrolux that was featured ...

remove the original cone

remove the braided wire and the spider

wax the outside of the speaker at this time

check the clearance of the inner diameter of the hole

compare the depth of the cavity with the width of the windings

slide the shim all the way to the bottom

set the spider down into the contact cement

squeeze out a couple equal lines of five-minute epoxy

remove some material from the bottom of the cone

complete the installation of the cone and the speaker basket

apply our contact cement to the outer perimeter of the speaker basket

drop the cone in place

install the gaskets

remove the dish shim

get one last look here at the joints between the speaker cone

run them through the centers of the input lugs on the speaker

send the output power to the speaker

cut the parts
