This accounting practice set is ideal for both accounting and accounting information system students. It provides a unique opportunity to experience both a computerised and manual system of accounting. It shows how the functions of MYOB (Version 15) correlate to the traditional bookkeeping methods -- filling in the knowledge gaps and assisting students to understand the similarities and differences between the two systems. Students will develop an appreciation of where traditional accounting fits into the more contemporary accounting information system. Dave's Detergent includes detailed step-by-step basic instructions for MYOB (Version 15) as well as templates for use in a manual system. This will ensure students gain practical experience in both methods and assist in transferring their newly acquired skills to real-life situations. Students are also encouraged to analyse the data and make decisions based on their workings, which provides an opportunity to look at the 'big picture' and gain further understanding of accounting concepts. FEATURES using the basic commands of a computer package -- MYOB (Version 15) -- to set up a company and use its relevant modules to create customers, suppliers and inventory control producing a set of manual financial accounts for a given monthly period the steps in a typical accounting cycle culminating in the production of financial statements for both a computerised and manual system creating an accounting worksheet typical financial transactions made in a small retail business including sales and purchases, returns to suppliers and balance day adjustments hands-on experience in posting journals to the general ledger and subsidiary ledgers comparing two sets of financial statements using ratios and other non-quantitative factors comparing financial statement formats of a proprietary company to that of a sole trader making recommendations on the possible purchase of another small business using both financial and non-financial accounting information ('the language of business'). Romance. Adventure. Mystery. This book has none of these things. What it does have in spades is a bunch of very short stories, many of which were first published in the local newspaper. For too long, short stories have not been nearly short enough. The collection you're holding in your hot little hands aims to remedy this. The Meaning of Life (And Other Short Stories) is a collection of Stuart McCullough's best writing. Rest assured that the short stories included in this collection have all either been hand-picked or (at the very least) right mouse clicked and dragged, to ensure that only the absolute cream of the crop has ended up between the covers.

As part of RPG 9, the Regional Transport Strategy sets out the spatial planning framework for the preparation of local transport plans, as well as other strategies and programmes. It seeks to achieve a high quality transport system by promoting management and cost-effective investment in the system and by rebalancing its structure and use in a more sustainable way. It supports the regional spatial strategy, particularly in relation to interregional corridors and urban renaissance. This document replaces chapter 9 of RPG 9 (2001 ed., ISBN 0117535621), and a revision of part of chapter 12, covering the Ashford growth area, is also available (ISBN 011753921X).
