Not all chemo meds cause hair loss

Cold Cap therapy could be an option for you.

Hair loss occurs everywhere.

Nails may be affected.

Neuropathy is a common side effect.

Your taste will change.

You will likely have nausea.

Drink lots of water for the days around chemo!

Your mouth may be affected.

Talk to your doctor about preserving your fertility.

You will be tired.

10. You will be \"foggy\" aka chemo brain.

You can live a pretty normal life.

There are many ways to increase the protein and caloric content of your plate.

You may want to drink more whole milk.

Add skim milk powder to your milk in order to make fortified milk by adding 1 cup of skim milk powder to 4 cups of milk.

Skim milk powder can be also added to most of your moist meals.

Try adding more cheese in your meals, or as a snack.

Try having more legumes.

You can increase the caloric content of your plate

you may find it convenient to purchase some nutritional supplements.

Sometimes you may feel unwell or too tired to prepare a meal.

A referral to the Dietitian may be recommended.
